DHANASHREE NAIK

Nagpur, India • dhanashreenaik.work@gmail.com • LinkedIn

PROFESSIONAL SUMMARY

Product Associate & Technical Solutions Builder with a strong foundation in Computer Applications (MCA - AI/ML) and hands-on experience bridging business requirements with technical execution. Skilled in requirement gathering, user flow mapping, feature definition, UAT testing, and collaborating with cross-functional development teams. Experienced in driving web and mobile product lifecycles, evaluating AI/ML tools, and delivering user-centric digital platforms that align stakeholder goals with technical implementation.

CORE COMPETENCIES & SKILLS

Product Thinking & Strategy:	Requirement Gathering, User & Pain Point Analysis, Feature Definition, User Flow Mapping, Prioritization, Product Documentation (PRDs)
Delivery & Operations:	Product Operations, SDLC, User Acceptance Testing (UAT), Bug Reporting, Sprint Coordination, Client & Stakeholder Management
Technical & AI Depth:	Python, SQL, AI/ML Concepts, Prompt Engineering, AI-Assisted Workflows, Git & GitHub
Design & Visual Tools:	Figma, Canva, Visual Communication, Brand Identity & Guidelines, Presentation Design
Productivity & Management:	Trello, Confluence, Vercel, VS Code, Google Sheets, PowerPoint

PROFESSIONAL EXPERIENCE

ABSYNERGY **Aug 2026 – Present**

Product Development Associate (Freelance) — Nagpur, India

- Gather business needs and translate high-level client objectives into structured technical requirements for a scientific & technical consultancy.
- Evaluate and recommend third-party integrations, domain architecture, and hosting configurations within strict project constraints.
- Coordinate with full-stack engineers throughout implementation cycles, tracking milestones and conducting rigorous QA/pre-delivery reviews.
- Successfully delivered and launched the live corporate web experience (absynergy.co.in) within defined scope and timelines.

TECHWALNUT INNOVATION LLP **Aug 2025 – Aug 2026**

Product Operations & Management Intern — Nagpur, India

- **Lively Libraries (Feb 2026 – Aug 2026):** Acted as primary product POC; conducted client discovery, translated operational pain points into product backlog items, analyzed user flows, conducted UAT, and collaborated with developers to deploy usability-focused features.
- **Mazacard (Aug 2025 – Feb 2026):** Supported operations and delivery for NFC/QR digital identity cards (mazacard.com); defined profile attributes, managed batch orders with print vendors, mapped NFC/QR tokens, and created product marketing assets.

FEATURED PRODUCT PROJECTS

BSS Nagpur Hub (Operations Digitization App) **Sept 2026 – Present**

Product Development Lead · Mobile Platform

- Gathered operational requirements to digitize manual workflows into a phased Android application covering booking, user management, and reporting.
- Mapped step-by-step user flows, created wireframes, and formulated clear user stories to guide developer sprint execution.
- Facilitated iterative client feedback loops and user validation sessions, ensuring seamless rollout across delivery milestones.

EDUCATION

Master of Computer Applications (MCA) – Specialization in AI/ML — Shri Ramdeobaba University, Nagpur **Sept 2024 – June 2026**

Bachelor of Computer Applications (BCA) — Dr. Babasaheb Ambedkar College, Nagpur **Sept 2021 – June 2024**

CERTIFICATIONS & PROFESSIONAL DEVELOPMENT

- **IBM AI Product Manager Professional Certification** (Product Strategy, AI Product Lifecycle, Data-Driven Decisions)
- **Prompt Engineering Specialization** — Vanderbilt University (Generative AI, Prompt Architecture, AI Application Workflows)
- **AI-Powered UI/UX Specialization** (Human-Centered Design, Wireframing, Rapid Prototyping)
